

MyLynch Privacy Policy

Updated: 10/19/2022

MyLynch does not store any user entered data, nor does it share that data with anyone, inside or outside of Dana-Farber Cancer Institute. The website uses an https protocol which also helps to protect user data through an encrypted connection.

MyLynch uses Google Analytics to manage resources for the site by observing page visits over time. The Google Analytics data stream for this site has all other data collection features turned off and it only reports locations of users at the country level.
